EUROPE REGULATES ROBOTICS
JEAN MONNET MODULE

Co-funded by the Erasmus+ Programme of the European Union

International Summer School

The Regulation of Robotics in Europe: Legal, Ethical and Economic Implications

Third Edition

2-7 July 2018, Pisa, Tuscany, ITALY

Application deadline 8th June 2018

www.europeregulatesrobotics-summerschool.santannapisa.it

The Summer School is part of a three-year project that was awarded in the framework of the Call for proposals 2015 – EAC/A04/2014 under the Jean Monnet Activities of the Erasmus+ Programme – Jean Monnet Modules on "Europe Regulates Robotics".

Aims

The Summer School will provide participants with an advanced understanding of the European framework within which robotic technologies are to be developed, marketed and used. Robotic technologies represent a novel kind of applications that has to be fitted within a pre-existing framework of legal standards, and socio-ethical beliefs and principles. Robots developed by research laboratories and industries across Europe need to comply with existing regulation, be respectful of – and promote – existing rights as recognized by the Charter of Fundamental Rights of the European Union (CFR), abide a responsible research and innovation approach and take into account existing – social – needs and desires. It is therefore essential, both for engineers designing such applications and for lawyers and social scientists seeking to acquire relevant professional skills to be able to counsel roboticists and robotic enterprises, to acquire an exact understanding of all the different profiles and of interdisciplinary interactions.

Training objectives

To provide students with a solid background and methodological approach to:

> enter the market for consultancy services to businesses developing robotic products

> undergo independent research in law and technology

> understand the non-technological issues to take into account in robotic products design.

INSTITUTE OF LAW, POLITICS AND DEVELOPMENT – Scuola Superiore Sant'Anna

THE BIOROBOTICS INSTITUTE – Scuola Superiore Sant'Anna

INSTITUTE OF MANAGEMENT – Scuola Superiore Sant'Anna

Venue The Course will take place in the buildings of the Scuola Sant'Anna in the heart of the historical city centre of Pisa, Tuscany (Italy)
Address: Piazza Martiri della Libertà, 33 - 56127 Pisa (Italia)

University credits A maximum of 2 academic credits (in accordance with the European Credits Transfer and Accumulation System - ECTS) will be awarded upon completion of the Course, if the final test is passed and the attendance requirement of at least 90% of the classes is met

Certificate of Attendance At the end of the Course only participants who have attended at least 90% of the classes, have passed the final examinationand have paid the tuition fee, will receive a Certificate of Attendance including University Credits acquired

Fees € 600,00 (six hundred euro). The cost includes tuitions, reference materials, and lunch on class days. One scholarship will be awarded to the best ranked candidate

Application and Registration Applicants shall register online at http://www.santannapisa.it/err/application to submit their application no later than June 07th 2017 at 11 pm (GMT)
